Address: 2 Worts Causeway Cambridge CB1 8RN (UK)

Briefly describe the population and all topics covered by this health needs assessment.

Briefly describe the epidemiology of congenital disorders, including within-country and international comparisons, and highlighting any high risk groups.

List the main services and interventions currently available for the care and prevention of the congenital disorders<sup>1</sup>.

---

<sup>1</sup> You may wish to include an assessment of the effectiveness, cost-effectiveness, coverage, quality and level of satisfaction with the interventions or services

Are there any threats to the continuation of services?<sup>2</sup>

What are the unmet needs as assessed by the Toolkit?

Is it feasible to meet the identified needs?<sup>3</sup>

---

<sup>2</sup> For example, in relation to resources, acceptability, competing priorities

<sup>3</sup> You may wish to consider strengths, weaknesses, opportunities and threats

What actions may be required to respond to the unmet needs?

Describe how the prioritisation has been done and the main findings<sup>4</sup>.

---

<sup>4</sup> For each selected action, you may wish to refer to: i) Level of gains possible; iii) Equitable delivery; iv) Acceptability; v) Coverage achievable; vi) Demand/perceived needs, vii) Potential for integration with existing programmes and services; viii) Other benefits of the intervention.

List the planned activities and how they will be evaluated.

List the proposed next steps.
